The "People Power" Family Superbook: Book 13. Shopping Guide (Online Shopping, Product Reviews, Department Stores, Trade Shows, Closeout - Wholesale, Factory Outlets) May 15 2021 In my opinion, unless you're a total introvert, agoraphobic, disabled or too lazy to leave the house, your best bet to buy most things you need is locally. Go to the Yellow Pages, read your local newspapers, drive around the shopping areas, go to local free ad websites and talk to people you know about what you need. I generally buy most of my stuff from the big department stores but if I need something like furniture, I'll check out the furniture stores on the poor side of the town because the prices for the same goods are often much cheaper than a store in the higher class part of town plus you can often haggle with the owner on a cash deal. By shopping on the poor side of town at supermarkets for food, you can often save several dollars on a load of groceries. Beyond that, I generally go to the thrift stores a few times a year to buy t-shirts, clothes and anything else that strikes my fancy as I look around. **The Purma Camera Book** Dec 22 2021 Picking up a camera that is 50 or more years old, understanding how it works, using it in the field and obtaining a set of unique photographs can be very rewarding. There are many how to books whether they are original camera manuals or photography technique books, but I found few books that help a photographer get the most from using

old and vintage cameras in today's world. I chose to use Purma cameras as they are a somewhat eccentric series of cameras, relatively easy to use and readily available at a reasonable price from auction sites, car boot fairs, Facebook Marketplace, etc. The shutter mechanism, lens and body are all simple and it is therefore usually possible to understand whether a Purma camera is usable upon first inspection. The only issue that photographers may need to navigate is the supply of 127 film. It is available from some film suppliers or sourced by adapting 120 film.
