A Dove of the East Jul 26 2019 This “dazzling collection” of short stories by the World Fantasy Award-winning author of *Winter’s Tale* contemplates the human experience across the globe (The San Francisco Chronicle & Examiner). In these twenty stories, Mark Helprin offers a series of meditations on some of humanity’s most enduring and universal questions. At the hour of his death, an American priest in Rome must choose between his church and his God. A young man finds love in a hot, dirty typewriter-ribbon factory in the Bronx. A Dutch child in a Canadian orphanage carries the pain of war and her love for her family in her heart. An Israeli scout risks the safety and respect of his comrades in an act of transformative charity. Through beautifully rendered memories and moments of epiphany, “all Helprin's stories deal with essences which lead from the heart...his images are clean and sharp and bright” (Kirkus). “When you read these

stories, a you must, you will, I believe, be uplifted and awed.”—Cleveland Plain Dealer **HELP ! Healthy Thinking in Times of Trouble** Nov 21 2021

The Last Vispo Anthology Oct 28 2019 This book collects experimental "visual poetry." With The Last Vispo Anthology, Fantagraphics spotlights the intersection of art and language in this innovative new collection ? without peer in English ? that gathers the work of visual poets from around the world into one stunning volume. The alphabet is turned on its head and inside-out and the results culminate in a compilation of daring and surprising verbo-visual gems. The Last Vispo is composed of visual poetry (a portmanteau of the words "visual" and "poetry) from the years 1998 to 2008, during a burst of creative activity fueled by file sharing and e-mail, which made it possible for the vispo community to establish a more heightened and sophisticated dialogue with one another. The collection extends the dialectic between art and literature that began with ancient "shaped text," medieval pattern poetry, and dada typography, pushing past the concrete poetics of the 1950s and the subsequent mail art movement of the 1980s to its current incarnation. Rather than settle into predictable, unchallenged patterns, this vibrant poetry seizes new tools to expand the body of work that inhabits the borderlands of visual art and poetic language. The Last Vispo features 148 contributors from 23 countries on five continents. It includes 12 essays that illuminate the abundant history and the state of vispo today. The anthology offers a broad amalgam of long-time practitioners and poets new to visual poetry over the last decade, underscoring the longevity and the continued vitality of the art form.

Values in the Key of Life Jan 30 2020 Values in the Key of Life is about values, about conflicting values and about choices that the author has not merely written, but composed into a "pleasing arrangement of parts" suggesting that harmony can be promoted with seven values which will build bonds between individuals and create a sense of community. By exploring these values in anecdotes, quotations and essays, Dr. Koppelman reveals why these are the key values for creating human harmony. The quotations and anecdotes are thought provoking and memorable, and they have been selected from sources as diverse as the Bible, Voltaire, Chief Dan George, and Alice Walker. The essays tell real stories about real people to help explore issues related to each of the seven key values.

Post-Hindu India Aug 07 2020 Kancha Ilaiah, the author of the best selling book Why I am Not a Hindu, pens a thought-provoking critique of Brahmanism and the caste system in India, while anticipating the death of Hinduism as a direct consequence of, what he says is, its anti-scientific and anti-nationalistic stand. This work challenges Hinduism's interpretation of history, with a virulent attack on caste politics, and also takes a refreshing look at the necessity of encouraging indigenous scientific thought for the sake

of national progress. It establishes Hinduism as a `backward` religion that suppresses the latent scientific and productive potential of the Dalit–Bahujan communities. The author says this oppressive system of spiritual fascism is detrimental to both the future of religion and the nation-state. He thus criticizes the idea of spiritual justice or varnadharma, used to justify the caste system, as rooted in spiritual inequality. On a micro-analytical level, it is based on a thorough study of the productive knowledge systems of the Dalit–Bahujan communities of Andhra Pradesh, and provides a detailed day-to-day analysis of the scientific technological processes and events at work in the life of a member of these communities. On a macro level, it shows how Hinduism fails to negotiate between faith and reason, unlike other major religions of the world. Kancha Ilaiah critiques the intellectual imagination of the dominant communities and inspires the marginalized. In the process of doing so he crafts a work of immense socio-political interest which appeals to academics, and also to all those who are concerned about contemporary India's polity and social fabric.

The Book of L Jan 24 2022 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be

very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

The Female Imagination Dec 31 2019 Is there such a thing as a female literary imagination – a special brand of insight and intuition that characterises women’s writing? Is there something about a novel, whether by Jane Austen, Charlotte Brontë or Doris Lessing, that tells us that it could only have been written by a woman? Do the subject matter, form and style that women choose throw light on the way they think and feel? In this brilliant and highly readable book, originally published in 1976, Patricia Spacks analyses the female view of the world. Juxtaposing – sometimes in startlingly original combination some eighty books written between the seventeenth century and the present day she uses both literary and psychological analysis to explore patterns that recur again and again in the stories women tell – whether about their own lives or the lives of their fictional characters. She dissects female experience in the twentieth century as viewed by an array of writers ranging from Kate Millet to Virginia Woolf; examines the interplay of social passivity and psychic power that dominates characters such as Maggie Tulliver and Jane Eyre, the altruism that impels Jane Austen’s and Mrs Gaskell’s heroines, the ‘acceptance’ of Virginia Woolf’s Mrs Ramsey, the personal and social conflicts that beset so many of the adolescent girls that figure in both nineteenth-century and contemporary literature; reveals the complex motives that can be bound up in a women’s deliberate choice of the artist’s role, as appears in the writings of Isadora Duncan’s and Dora Carrington, Marie Bashkirtseff and Mary McCartney – and the surprising forms ‘freedom’ can take, as for Beatrice Webb in the East End of London or Isak Dinerson in the wilds of Africa... The voices echo and re-echo across the years in fascinating counterpoint. Their range is enormous – rebels and reformers, actresses and painters, Society ladies and unknown girls in small towns, novels, poems, memoirs, diaries and letters, both English and American, and alongside classics such as *Wuthering Heights* and well-known modern works such as *The Bell Jar*, Patricia Spacks introduces an intriguing selection of relatively unknown writers, such as Napoleon’s psychoanalyst great-niece Marie Bonaparte, the Victorian arch-fantast Mary MacLane and the autobiography of a

seventeenth-century Duchess. *The Female Imagination* is much more than a study of women's writing. It is an inquiry into the nature of female thought, self-expression and experience. As such it should appeal to every educated woman – and to many men too. **OGT Reading** Nov 29 2019 OGT Exit Level Reading Workbook prepares students for the reading portion of the Ohio Graduation Test. Samples from similar tests provide plenty of practice and students learn to take multiple choice tests on their comprehension of what they read. Students learn to evaluate their own short answers to targeted questions, and learn from other students' responses to similar questions. This book is suitable for students in all states who need to take a reading exam for graduation or course completion.
